Foot Care

Call us to schedule your
foot care appointment
Weekdays 9 a.m. to 5 p.m.

(905) 522-6887 x. 2217

Our highly skilled nurses provide advanced foot care for people of all ages, right in the client's own home, retirement home or in scheduled clinics.

Regular foot care is an important preventative service for everyone. For people with diabetes, foot care is crucial in early detection and monitoring issues and is key to optimal diabetic foot health.

Care Services:

- Clipping nails
- Treating corns, calluses, ingrown nails, thickened nails
- Preventative foot care
- Assessments and health education
- Referral to other health professionals as required

All SJHC nurses have advanced foot care certification.

The cost of service will depend on where the care is received. Call us for details.
